General Comments

The Quality Assurance Monitor is on site in the morning to conduct a monitoring inspection.
Child-to-staff ratios are maintained throughout the visit.

During the monitoring inspection, it is observed that all required information is posted in a visible and prominent location within the facility. The indoor play area is observed to be clean, well maintained, and equipped with a variety of materials and equipment accessible to children.

The outdoor play area is observed during children's outdoor play . The area is observed to be free of visible hazards and equipped with a variety materials and equipment available for children's use.

It is observed that each child has a designated space for personal belongings and that personal belongings are labelled with the child's name.

During the inspection, one group of children is observed participating in indoor activities while another group is engaged in outdoor play. Transitions from indoor to outdoor activities and the transition to lunchtime are observed. Lunchtime routines are also observed. Supervision of children is observed throughout the visit, and positive interactions between educators and children are observed during daily activities.
