Full-time Early Learning and Child Care Centre	52	PRESCHOOL SCHOOL-AGE
ELCC Licensing Staff	**Position Title**	
Britta Garnett	Quality Assurance Monitor	

Order for Compliance	Regulation	Date to be corrected	Date corrected

General Comments

Monitoring Inspection:

Children and educators were observed transitioning back from an outing and preparing for lunchtime. Each child washed their hands before eating. Children were invited to join lunch at their own pace, with some choosing to engage with the learning invitations that had been set up before moving to the table. Pasta with beef and tomato sauce was served for lunch. Children were observed requesting additional servings if they were still hungry, this supports children's ability to recognize and communicate their needs.

Purposeful planning is evident through the documentation, invitations, and materials added to the environment that support children's current interests. Ongoing projects and experiences related to environmental literacy are reflected throughout the learning environment.

Each group has a "Regulation Kit" for their environment and a travel-size one for their First Aid bag. Regulation Kits are stocked with materials to support children with emotional regulation.

In response to discussions held at the Renewal Inspection - the facility has created and implemented a meal record log that is kept in the kitchen.

An inspection of the after-school environment was conducted this morning however; the children were not present.

Monthly fire drills are documented.
Daily attendance records are accurate and reflect all children present. Child-to-staff ratio was observed to be met during Monitoring Inspection.
Incident logs are complete and signed by parent/guardians.
Facility is currently meeting the 50% trained Early Childhood Educators (5/7) requirement.
