General Comments

QAM arrived in the morning and observed the indoor learning environment. Learning experiences available to the children included a sand exploration activity with shovels, a Remembrance Day activity, and opportunities to practice phone numbers. Materials and supplies were available throughout the block, literacy, art, and dramatic play learning areas.

QAM then observed the children in the outdoor learning environment. Children were returning to their outdoor classroom from a wooded area, where they had collected sticks to build a fort. The educator shared that the children have demonstrated interests in large body movement activities, nature hikes, obstacle courses, and creating musical instruments.

The parent information board, child-to-staff ratios, and staff files were reviewed and found to be accurate and up to date.
