Full-time Early Learning and Child Care Centre	48	INFANTS PRESCHOOL
ELCC Licensing Staff	**Position Title**	
Britta Garnett	Quality Assurance Monitor	

Order for Compliance	Regulation	Date to be corrected	Date corrected

General Comments

Monitoring Inspection:

Children and educators were observed engaged in a variety of activities this morning including dramatic play, stories, sensory opportunities, and outdoor play. The infants were observed exploring their environment freely as educators supported their play. The preschool children were observed in the outdoor play area; children tested their limits, ran, climbed, explored loose parts, and read stories. Educators were observed supporting children as they problem -solved and when they tidied up the outdoor environment.

Purposeful planning is evident through the documentation, invitations, and materials added to the environment that support children's current interests. Ongoing projects and experiences related to environmental literacy are reflected throughout the learning environment.

Each group has a "Regulation Kit" for their environment and a travel-size one for their First Aid bag. Regulation Kits are stocked with materials to support children with emotional regulation.

In response to discussions held at the Renewal Inspection - the facility has created and implemented a meal record log that is kept in the kitchen.

Room #1 - was closed today due to low attendance.

QA Monitor reviewed the transition of children into the Two-Year-Old Room and confirmed that all infants must have reached their second birthday before being moved.

Pasta with beef and tomato sauce was served for lunch. Children were observed requesting additional servings if they were still hungry, this supports children's ability to recognize and communicate their needs.

Handwashing routines observed after outdoor play, before meals, during washroom and diapering routines. Monthly fire drills are documented.

General Comments
Daily attendance records are accurate and reflect all children present. Child-to-staff ratio was observed to be met during Monitoring Inspection. Infant Daily Information sheets observed to be completed throughout the day. Incident logs are complete and signed by parent/guardians. Facility is currently meeting the 50% trained Early Childhood Educators (8/12) requirement.
