Full-time Early Learning and Child Care Centre	60	INFANTS PRESCHOOL
ELCC Licensing Staff	**Position Title**	
Abby Nice	Quality Assurance Monitor	

Order for Compliance	Regulation	Date to be corrected	Date corrected

General Comments

When QAM arrived in the afternoon, the children were napping. Children were appropriately supervised and maintained within the required staff-to-child ratios. Infants were observed resting safely in cribs.

The learning environments were well equipped with materials and resources to support art, literacy, dramatic play, and block-building experiences.

During observation of the outdoor learning environment, QAM discussed with the administrator the need for an additional protective surface in the infant play area, as well as the installation of impact-absorbing material beneath the caterpillar climber to help reduce the risk of injury in the event of a fall.

The rear outdoor play area remains closed and is not currently in use pending fence repairs. These repairs are required to ensure privacy and prevent public visibility into the play area while children are engaged in outdoor activities.

A review of documentation confirmed that the Parent Board was current, child-to-staff ratios were being maintained, fire drill records were up to date, and staff files were complete and current.
