## General Comments

The Quality Assurance Monitor (QAM) was on site to conduct a monitoring inspection.

During the inspection, the following elements were verified:
- Child-to-staff ratios
- Rest area and napping practices
- Indoor play area and materials
- Required postings
- Diaper-changing areas
- Supervision
- Storage for personal belongings

When the QAM arrived at the facility, the children were having lunch and then transitioned to naptime. School-age children were present for a full day, as there was no school that day. They participated in free indoor play alongside a group of preschool-aged children.

The QAM held a discussion with the administrator regarding designation requirements in preparation for the upcoming licence renewal. The administrator confirmed that all eligible educators are on track to complete their required 10 hours of professional learning and that the Quality Improvement Plan (QIP) is up to date.

No non-compliances were noted at the time of the inspection.
