General Comments

Licensing Staff arrived at the facility to conduct the Renewal Inspection. Upon arrival, the children were preparing for their morning snack. Handwashing was observed prior to the children sitting down to eat. Each classroom was bright, organized, and welcoming. Several lamps and string lights were used throughout the rooms, creating a soft and comfortable lighting environment.

Following snack, the younger classrooms transitioned outdoors, while the children in the four-year-old classroom participated in a variety of activities. One Educator sat with the children and read "Green Eggs and Ham", while the other Educator prepared several tabletop activities. The children had opportunities to explore painting, cutting, gluing, using stamps, creating a flower garden, and building with blocks.

While outdoors, the children were observed riding push cars, playing on a small wooden climber, and playing pass the ball. The younger groups transitioned back indoors first to have their diapers changed before lunch. An optional hot lunch was offered today which was mashed potatoes, peas, and chicken fingers.

Only positive child guidance practices were observed throughout the inspection. Educators modelled kindness and respect in their interactions and were heard offering children praise and words of encouragement.

Staff and child files were reviewed and contained all required documentation. Each classroom also had several learning stories, pictures of children participating in activities, and weekly planning sheets on display.

Licensing Staff recommends the facility for Renewal.
