General Comments

Licensing staff arrived at the facility to conduct a monitoring visit. The first group of children were in the outdoor playground, and the second group exited the bus with their educators. The children arrive between 2:30 and 3: 00 pm and they stay outside for the first hour or so. They are a very imaginative group, and they were making up games to play, some of the children were using the monkey bars for exercise, running up and down the climber, imaginary cooking at the mud kitchen, and some were having their snack outside. Many of the balls get kicked over the fence and educators mentioned that they collect them once a week.

The inside classrooms are well set up, bright and clean with a good variety of materials. The children came inside as it began to get dark outside and many of them had been picked up and gone home by this time. They are all working on entrepreneurship activities where they will be making bookmarks, Christmas cards, ornaments and colouring books to sell.

The fire drills, first aid kit lists, playground checklists, cleaning lists, and attendance forms were all complete and up to date. The staff files were verified, and 10 child files were reviewed and found to be complete. The parent board had all its necessary postings and was in the entryway where parents could see it. The educators were kind and patient with the children, and all child guidance was positive and pro-active.
