### General Comments

Licensing staff arrived at the licensed facility to conduct the yearly license renewal inspection. The children were engaged in free play activities when licensing staff arrived at the licensed early learning and childcare home.

After playing washing up, the children went outdoors to engage in play in the outdoor play environment. The children were observed playing with musical instruments, sand play and gross motor activities before going back indoors to wash up and have lunch.

After lunch, the children washed up and then went down for a nap.

Please ensure there are mark-making and craft materials accessible to the children while engaging in play in the indoor play environment.

Licensing staff observed evidence of learning posted on the walls, at the child's level for the children to revisit their learning experiences.
