General Comments

The inspector is on site to conduct a renewal inspection.

During the inspection, the inspector observes free play, a child-initiated yoga activity, sensory play containing natural materials, outdoor play, lunch, and the transition to nap time. During the sensory play, the educator demonstrates responsiveness to children's interests by adding pom-poms to the sensory bin after observing a child wanting to place items on the pinecones. The educator is actively involved with the children and helps them participate in activities and routines throughout the day.

The child-to-staff ratio is maintained throughout the visit.
