

## Early Learning and Childcare Facility Inspection Report

Type of Inspection:  
Monitoring Inspection

Pursuant to section 21 of the *Early Childhood Services Act*, operators of licensed early learning and childcare facilities must post their most recent inspection report in a clearly visible and prominent place in the facility.

| 11(c)(ii) The qualifications and training requirements for administrators and educators are as follows: (c) at a full-time or part-time early learning and childcare centre, (ii) on and after July 1, 2020, (A) at least 50% of educators must hold a one-year Early Childhood Education Certificate or training that is equivalent in the opinion of the Minister, and (B) an administrator must hold a one-year Early Childhood Education Certificate or training that is equivalent in the opinion of the Minister.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  | 11(c)(ii)  | Jun 30, 2027         |                |
| Comments: The facility does not meet the requirement that at least 50% of educators hold a one-year Early Childhood Education Certificate or equivalent training. The administrator indicates that one staff member is currently enrolled in an Early Childhood Education program and is expected to complete the program in June 2027.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |            |                      |                |
| 39(2) A licensed facility shall have a separate storage space under lock and key that is inaccessible to the children for each of the following: (a) toxic products, chemical products and cleaning supplies;                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            | 39(2)(a)   | Oct 21, 2026         | Oct 21, 2026   |
| Comments: During the inspection, the quality assurance monitor observes an unlocked storage area containing multiple toxic and chemical products, including concrete mix, drywall compound, Home Seal, Tytan Window & Door Foam, Invisible All-Around Lubricant, gallons of paint, and engine enamel. Additionally, the quality assurance monitor observes a bottle of Febreze stored in a cabinet within one of the washrooms.<br><br>Toxic products, chemical products, and cleaning supplies must be locked and inaccessible to children.<br><br>The quality assurance monitor contacts the administrator regarding the unlocked storage space containing multiple toxic and chemical products. The administrator indicates that the door is normally kept locked. The quality assurance monitor asks to have permission to lock the storage area. The administrator authorizes the door to be locked, and the storage area is locked immediately. The bottle of Febreze is also stored in a locked area. Deficiency is now compliant |            |                      |                |

### General Comments

The quality assurance monitor is on-site to conduct a monitoring inspection.

The quality assurance monitor is present during the afternoon outdoor play period. The children are engaged in a variety of activities, such as riding tricycles, playing soccer, building in the sand, and using the slide and swing structures. One child asks the quality assurance monitor for paper and a pen while outdoors. Following this

## General Comments

request, several other children express an interest in drawing and colouring. The quality assurance monitor asks the administrator whether paper, crayons, or markers are available for the children to use outdoors. The materials are brought outside, and several children choose to follow their interest in drawing and colouring during the outdoor play period.

The following elements were verified:

- ratio and maximum number of children
- posted in a visible and prominent place in the facility
- child guidance
- premises
- indoor play area
- indoor play area materials and equipment
- washrooms
- storage space
- diaper changing

A discussion takes place with the administrator regarding the unlocked storage area. The quality assurance monitor also observes a large saw mounted on a saw table, as well as multiple screws and nails on the floor of the storage space. The administrator indicates that the door is normally kept locked. The quality assurance monitor asks to have permission to lock the storage area. The administrator authorizes the door to be locked, and the storage area is locked immediately.

During the visit, the ratio is respected.
