### General Comments

A follow-up inspection was completed late morning. Ratio requirements were respected at the time of the visit.

Upon arrival, one preschool-aged child was sleeping while one infant was engaged in free play. The operator indicated that the children had been outside and had returned indoors shortly before my arrival. During the visit, the infant also fell asleep. No school-aged children were present at the time of the visit.

The facility meets the requirements of the Act and regulations; a licence will be recommended.
