General Comments

A Monitoring Inspection was conducted this afternoon. Children were observed entering the room. Once inside, educator reminded the children to wash their hands. Children were observed during free play and snack. The educator stated that the children are very interested in arts and crafts. This was evident, based on the art projects that were observed throughout the classroom. Several examples of open-ended art were observed. Several forms of documentation were observed - photos, learning stories, and artwork. Children were observed sitting together, during snack. Today's snack was crackers and fruit. Positive child guidance techniques were observed - educator using positive language, educator giving gentle reminders, educator redirecting negative energy, and educator providing appropriate supervision. Parent board observed and all required documentation was available.
