General Comments

Monitoring Inspection:

Children and their educator were observed engaged in a variety of activities this morning including outdoor play, music and movement, sorting opportunities, and stories. The indoor and outdoor play areas are well maintained and set up with a variety of materials that support children's learning, exploration, and interests. The children's interest in the apples from the tree in the yard has been brought indoors and incorporated into the dramatic play area. Cardboard tree cut-outs with Velcro apples provide opportunities for children to sort, classify, and engage in dramatic play while building on their current interests.

Documentation of purposeful planning is displayed for families and visitors to view and clearly illustrates the connections between children's interests, educator observations, planned experiences, and the NB Curriculum Framework.

Handwashing routines were observed after outdoor play and before mealtimes. Diaper changing procedures were observed to be followed.
Monthly fire drills are documented.
Daily attendance records are accurate and reflect all children present. Child-to-staff ratio was observed to be met during Monitoring Inspection.
Incident logs are complete and signed by parent/guardians.
Infant Daily Information sheets observed to be completed throughout the day.
