ELCC Licensing Staff Jodi Hennessey	Position Title Inspector		

Order for Compliance	Regulation	Date to be corrected	Date corrected
----------------------	------------	----------------------	----------------

General Comments A renewal inspection was conducted during the afternoon. Licensing reviewed all staff files and verified that all required documentation was complete and up to date. A random review of ten children's files was also completed, and all required documentation was found to be present. Upon returning from school, the children and educators prepared for outdoor play. Children were observed engaging in a variety of activities, including basketball, swinging, using the school's playground equipment, and playing catch with balls. Licensing observed educators strategically positioned throughout the playground area to ensure all children remained within sight and were appropriately supervised at all times. Educators were observed responding promptly and appropriately to children who experienced minor falls and scrapes, providing care and support as needed. Following outdoor play, the children transitioned indoors and participated in snack time and a variety of activities, including air hockey, dollhouse play, the Guess Who? game, Lego building, Oobleck exploration, and drawing and colouring. Educators were observed using positive child guidance practices and maintaining supportive, respectful interactions with the children throughout the inspection. Based on the observations made during the inspection, the licence is recommended for renewal.
