General Comments
<p>A renewal inspection occurred today.</p> <p>Children were observed inside the classroom. Children washed hands as they arrived. The environment was purposefully designed and planned to enhance each child's healthy development and learning. Educators support child engagement by negotiating equitable access to materials, friendships and activities. Invitations were set up in all areas of the room. The children were busy playing with their homemade car ramp, cooking pizza, using letter rocks, playing with puppets and playing musical instruments. The play was open-ended which allowed for multiple choices, solutions, and possibilities for exploration and investigation. Natural, familiar real-life materials were available for the children.</p> <p>Staff files and random review of children's files were complete.</p> <p>Facility is recommended for licensing.</p>
