## General Comments

A Monitoring inspection was completed this morning. The learning environment in both the afterschool and preschool rooms were set up with several well-defined learning centers. Several forms of documentation were observed throughout the facility, some of which included learning stories, webs, and pieces of children's artwork. A group of children were observed sitting at a table, playing with Play Doh. An educator was observed sitting with the children, taking part in conversations and play. Positive child guidance techniques were observed. The environment was arranged so children could move freely between learning centres, and educators were observed using positive language when interacting with the children.
