| General Comments |
| A Monitoring Inspection was completed this morning. Classrooms were set up with several well-defined learning centers, some of which included: building & transportation, reading, dramatic play, and arts and crafts. Several forms of documentation were observed throughout the facility - learning stories, children's artwork, individualized binders full of past learning, and webs. Positive Child Guidance techniques were observed in all classrooms and during outside play. Educators were observed sitting with the children, taking part in activities, and conversing with the children. Educators were observed using positive language when interacting with the children and educators were observed preparing the children for transitions (cleaning up, lining up to go inside, and hand washing procedures). |
