General Comments

A renewal inspection occurred today.
The children were observed engaged in the various interest centres in each of the inside learning environments as well as observed in outside play.
The children learning is documented and displayed in each room, using a variety of documentation from pictures, learning stories, and webs.
Handwashing was observed occurring several times during the inspection.
Discussed with Administrator, during the inspection that the small upstairs room on the front of the building measures for four children with one educator and the back small upstairs room measures for three children and one educator as per documentation from February 14, 2022. Administrator indicated that, for now, they would have one educator with four children in the front room and use the back room for gross motor at the end of the day when numbers are below four children.
Discussed parent committee with Administrator. She indicated that they will be using Zoom meetings with parents to conduct these. Discussed that the dates of the meetings, minutes from the meeting and names of parents who attend are what is required for licensing. These meetings are held quarterly.
Educators were observed engaged with the children in their play and learning and having meaningful, respectful and responsive interactions with the children in their care.
Facility is recommended for license renewal, pending the recommendation from Fire.
