

Early Learning and Childcare Facility Inspection Report

Type of Inspection:
Renewal Inspection

Pursuant to section 21 of the *Early Childhood Services Act*, operators of licensed early learning and childcare facilities must post their most recent inspection report in a clearly visible and prominent place in the facility.

Name of operator The Rothesay Nursery School Inc.	Licence Number 275013	Inspection Date March 04, 2022	
Facility Name ROTHESAY NURSERY SCHOOL		Telephone Number (506) 847-1810	
Address 7 Gondola Point Road Rothesay NB E2E 5J6			
Name of Early Learning and Childcare Licensing Staff Breanne Jones		Position Title Inspector	

Order for Compliance	Regulation	Date to be corrected	Date corrected
21 The daily activities of a licensed facility shall be purposely planned in advance and documented and shall respond to the capabilities, needs and interests of each child.	21	Mar 28, 2022	
Comments: There was some documentation posted throughout the room(a web about Winter, some creative art pieces and some photos of the children), however the children's interests were not easily identified within the environment. Discussed program planning based on the children's interests and documenting this in the form of a binder/folder. Today the children were heard discussing/planning their upcoming birthdays. What else could be added to the room to support these interests?			
24(1) For the purposes of subsection 20(1) of the Act, the following records and documents shall be maintained on the premises of a licensed facility: (a) financial records.	24(1)(a)	Mar 28, 2022	
Comments: Some financial documents are not currently being maintained on site. Discussed with Director. These documents will be printed moving forward and maintained in a file/binder on site.			
24(1) For the purposes of subsection 20(1) of the Act, the following records and documents shall be maintained on the premises of a licensed facility: (c) staff member records that include (vii) a copy of a valid first aid certificate and a valid cardiopulmonary resuscitation certificate for each administrator and educator.	24(1)(c)(vii)	Mar 28, 2022	
Comments: First aid/CPR certificate has expired for relief staff. This staff will be working on site in the next 2 weeks. This staff member can not be left alone with a group of children until CPR/First aid certificate has been renewed. Discussed with Director at time of inspection.			
28(2) An operator of a licensed facility shall carry out emergency evacuation and fire drills monthly.	28(2)	Mar 28, 2022	
Comments: A fire drill was not completed for February. Ensure these are completed monthly going forward.			
30(3) An operator shall maintain the indoor play area of a licensed facility to ensure the safety of the children.	30(3)	Mar 31, 2022	
Comments: There is a floor tile that is in poor condition near the sink and garbage can. Tile to be replaced. If this can not be completed prior to license expiry, operator to provide proof of anticipated date for repair to occur to inspector (an email from the church stating when this can be repaired).			
31(3) An operator shall maintain the outdoor play area of a licensed facility to ensure the safety of the children.	31(3)	Mar 28, 2022	
Comments: One of the benches against the fence has a splintering board. Board to be replaced or bench removed.			

Order for Compliance	Regulation	Date to be corrected	Date corrected
32(1) An operator of a licensed facility shall provide indoor play area materials and equipment that are (d) clean and in good repair.	32(1)(d)	Mar 28, 2022	
Comments: The Lego plates on top of the Lego table are in need of cleaning and disinfection. If these can not be cleaned they should be replaced. The brown cube shelving unit within the music center is showing wear and is scratched. This should be repaired in the near future. The chair cushion within the side room has been taped to repair. Tape can not be used to repair furniture. Chair to be removed/replaced.			

General Comments
<p>The renewal inspection was completed this morning. The children were observed freely circulating interest centers. The educators were observed interacting with the children at their level and engaged in conversations. Handwashing occurred upon a child's arrival and prior to eating snack.</p> <p>The children have had a week with "special days" leading up to March break. Today is beach day. The room has been set up with tropical decorations, a beach volleyball net, and accessories have been added to the environment.</p> <p>A variety of creative art materials were set up on the table for the children to explore.</p> <p>The children had a picnic snack today sitting on their towels that they had brought from home.</p> <p>Portfolios for each child are positioned on a low shelf for children to review as they wish.</p> <p>More open ended art opportunities to be provided, less pre planned crafts.</p> <p>There are no anaphylactic allergies at this time. Sensitivities are posted on the board within the indoor play area.</p> <p>The children typically play outdoors toward the end of the morning. They did not participate in outdoor play today, as the temperature was very cold.</p> <p>Recommending that the educators focus on more open ended art opportunities. A resource will be sent to the staff to support this.</p>
