<p><b>General Comments</b></p> <p>Monitoring Inspection completed today. Children were observed in the indoor play environment and preparing for outdoor play.</p> <p>Indoors a variety of materials were set up as invitations to play throughout the play environment. Creative art, dramatic play, blocks, sand play and playdough were available and accessible for the children. Children were provided with an opportunity to engage in a group activity making volcanoes and mixing ingredients so that their volcanoes erupted. Educators supported children's efforts and engaged with children in conversation as they participated in the activity.</p> <p>Recommend for child(ren) with extreme allergy management plan that all details are completed in full, including details of allergy, and all steps required in case of emergency. Maintain a copy with the epi-pen and a second copy in the child's file.</p> <p>Please update contact information for licensing staff on parent board.</p>
