Order for Compliance	Regulation	Date to be corrected	Date corrected

### General Comments

A monitoring inspection was completed today.

The indoor play environment is purposefully planned with a variety of materials for the children. Dramatic play, small manipulatives, blocks and Lego, creative art, sensory play, and gross motor play were observed by QA Monitor during inspection. Children were observed to move freely throughout the environment during free play.

Educators and parent volunteer were observed engaged in play and conversation with children throughout the morning. Listening attentively as children spoke and extending play through conversation and the introduction of new materials.

Handwashing observed when children came in from outdoors and before having snack.
