General Comments

A renewal inspection occurred today. The children were observed during lunch, nap/quiet time, inside and outside play. Proper handwashing and diaper changing procedures were observed being followed during the inspection.

Discussed with operator nap time. Children who do not nap are not required to rest, but they may play quietly. In discussion with parents, educators establish a flexible rest schedule allowing for individual children's needs. The children's learning is documented and displayed throughout the facility and in binders for the children and parents to view at any time. Educators were observed having respectful and meaningful interactions and conversations with the children in their care during the inspection.
