General Comments

A renewal inspection occurred today.
The children were observed participating in both inside and outside play in the rain.
Discussed with Administrator that Designation aligns with renewal of the license, so Educators/Administrators have from June 1 of the current year to May 31 of the following year to complete their ten hours of professional learning.
The children were also observed participating in sensory activities throughout the learning environments with Educators actively engaged with them in their learning.
Children's learning is documented and displayed on the walls as well as in a binder for each room as proof of the learning that has been occurring.
Educators were observed having positive interactions and conversations with the children in their care and redirecting behaviors appropriately.
Facility is recommended for license renewal.
