General Comments
<p>A monitoring inspection occurred on the school-age license. Inspector observed the children outside during the inspection as they did not have access to their licensed space due to the students from the school preparing for a year end play/talent show. Educators were observed to have brought materials from the inside play area to the outside playground and grassy area adjacent to the school. Inspector observed the children playing on the school's stationary equipment, engaged in water play, Lego, Pokemon cards, drawing with chalk and socializing with their peers. Operator indicated and the Inspector observed that the children did have access to the school's washroom facilities if they were needed during their time outside. A new staff file file was reviewed by Inspector and verified complete.</p>
