General Comments The inspector is on site to conduct the renewal inspection. During the inspection, the inspector observed children arriving from school, the afternoon snack period, outdoor play, and indoor play. Children are engaged in activities of their choice, including colouring, playing with the sand table, exploring a sensory bin filled with rice and fall leaves, and building houses with sheets. Positive child guidance is observed throughout the inspection. Educators interacted with children at their level, spoke to them in a calm and respectful manner, and engaged positively with them during play and daily routines. A discussion took place with the administrator regarding the outdoor play area. The designated area for school-aged children is the Sussex Elementary School Park. Since this park is not part of the daycare facilities, it was not inspected during the renewal inspection. It is the operator's responsibility to ensure that the outdoor play area is safe for children. Any safety concerns must be communicated with the school so that corrective measures can be taken. The ratio is respected throughout the inspection.
