General Comments

Completed follow up to renewal inspection today (delayed due to COVID-19 and then the licence not active downstairs). Children have returned to the downstairs space and are divided into two groups.

General Comments

Children were heading to the trails for a nature walk to hide rocks they had designed with poppies using paint. The children were eager to show me their creations and were proud of their work. Some of the children also had art work displayed on the walls today. It would be great to see other forms of documentation of the children's learning. Progress was noted today, but there is still room for growth with documentation and planning. This was discussed with supervisor.

The children were not observed during indoor play during today's inspection, as they were enjoying the outdoors.
