<p>General Comments</p> <p>Monitoring Inspection:</p> <p>Children and educators were observed engaged in a variety of activities this afternoon including outdoor play, board games, diamond art, and building with small magnetic blocks. A small group of children were observed engaging in dramatic play in their "Nail Salon", where they took turns painting each other's nails.</p> <p>Purposeful planning is evident through documentation, invitations and materials added to the environments that support the children's current interests (diamond art, board games, nails, and hockey). Improvements were noted since last inspection - soft lighting, new seating and a variety of board games have been added to the Mini Gym. The facility has been painted throughout.</p> <p>First Aid Kits have been replenished, and emergency contacts have been added.</p> <p>During inspection educators were asked how many children are present; the number of children stated, the number of children recorded on attendance and the number of children within the rooms did not match. Educators must know how many children are present at all times. Ensure frequent headcounts are conducted and attendance is updated when children switch groups. QA Monitor discussed with administrator on site.</p> <p>Raspberries, trail mix and milk were served for snack. Handwashing routines were observed at arrival from school. Monthly fire drills are documented. Child-to-staff ratio was observed to be met during Monitoring Inspection. New staff file (2) review was completed, all required documents are in place.</p>
