General Comments

The Inspector was onsite to complete the renewal inspection and observed the children eating lunch, which matched the menu posted in a visible area of the center.

Shortly after lunch, as the children were beginning their rest period, the fire alarm was activated to conduct the monthly fire drill. The Inspector observed the educators safely leading the children outdoors in a timely manner, ensuring all children were accounted for once outside.

The Inspector also observed the rest period. A few children who did not wish to rest were provided with the option to remain awake and were kept engaged in a quiet environment by the educators.

When they woke up from the rest period and had afternoon snack before heading outdoors.

The ratio is respected during the renewal inspection.
