General Comments The Quality Assurance Monitor is on site this mid-morning to conduct a monitoring inspection. The following elements are observed: - Child records - Signed Consent - Incident Report - Medication - Personal Belongings - Washroom - Outdoor play area During the visit, children are observed outdoors exploring the environment by making mud pizzas and mud volcanoes. A water tub with bubbles is also observed, where children wash their animals. Discussions occur between the operator and the children, including a conversation about where the water from the mud volcano flowed, resulting in a small puddle. The Quality Assurance Monitor discusses designation requirements for the renewal year with the operator. The operator confirms that she is completing her 10 hours of professional learning and that her Quality Improvement Plan is up to date. The ratio is respected during the visit.
