Order for Compliance	Regulation	Date to be corrected	Date corrected
21 The daily activities of a licensed facility shall be purposely planned in advance and documented and shall respond to the capabilities, needs and interests of each child.	21	Jul 12, 2021	
Comments: Operator does not have a consistently documented plan, there are no recent records/planning tools in evidence. Operator must demonstrate that planning is a process that involves engaging the children and reflecting on the children's interests, passions, strengths and abilities.			
32(1) An operator of a licensed facility shall provide indoor play area materials and equipment that are (b) arranged on low, open shelves and accessible to the children receiving services at the licensed facility,	32(1)(b)	Jul 12, 2021	
Comments: QA Monitor unable to determine if a variety of materials are present as all of the play materials are in closed bins on a shelving unit in the room. The dramatic play "kitchen center" was bare. Materials must be stored on open shelves, accessible to children to allow for independent selection. Operator should consult page 61 of the Operator Manual "9.2.2 Indoor play area materials and equipment", and Appendix 22, Equipment and Materials for School-age Children. Operator should also consult the curriculum framework.			

<p>General Comments</p> <p>During conversation with QA Monitor, the Operator indicated that she has been purposeful in planning to introduce nursery rhymes, but struggles with documenting her program. Discussed some options, alternate ways to document (webbing, notebook...) QA Monitor will return to offer additional support in this area as well as documentation of children's learning and indoor play materials and equipment.</p>
