General Comments
The center is clean and has a variety of age appropriate activities and materials in each classroom. I observed a lot of positive child guidance such as encouragement and gentle reminders, and the educators appeared very responsive to the needs of the children. The educators in each room actively participated in activities with the children, such as reading books, singing, sitting and playing with the children, and observing and commenting on children's work. There was children's work displayed throughout the center.
