### General Comments

On the day of my visit I was properly screened upon entry and all Covid protocols are being followed. It was a beautiful day and all the children were outside playing. The 2 year olds went for a walk, and everyone else was in the outside play area. Educators need to remember to take the inside toys outside for more interesting play experience. Jennifer and I discussed their plan to add more outside toys particularly loose parts so there will be dolls for the doll house and dishes and pretend food for the mud kitchen etc.

A general clean up outside is needed especially around the wheel chair ramp and any temporary fencing that has fallen down needs to go back up. Some of the inside classrooms need organized and some closets will need deep cleaning however in general the classrooms look bright and child appropriate. Programming needs to be stronger, at a minimum there should learning stories that make the connections to the curriculum, child made books to read, and the Educators should have reflective journals, programming plans and portfolios.

The loft in the 3 year old classroom needs to be fixed as the stairs are unsafe both in the gap size on the side railings and the distance of the steps ( too narrow and too far apart).
