Comments: Deficiency is now compliant			

General Comments
<p>Follow-Up Monitoring Visit performed.</p> <p>On the day of my visit the two's room was operating smoothly. Educators were engaged with children- reading stories, singing, and counting.</p> <p>Puzzles and matching games were set out while lunch was being prepared and there was chalk paper taped to the floor for mark-making.</p> <p>Nap materials are now stored in bags and buckets and the small cabinet with toxic materials is locked.</p> <p>Attendance and potential illness forms are being filled out and are up to date. Please remember to add the reason children are absent, using the code at the bottom of the attendance form.</p> <p>Please be aware of items that are stored on the shelf above the reading area. There is a small plastic chair that is being stored sideways on top of a pile of papers. Items can be stored on those shelves but it must be in a safe manner so that items do not slide down onto the children.</p> <p>There was documentation in the room that included photos and the children's interests. Please include the date on these so we can verify that recent documentation is being posted.</p> <p>Staff files were checked from the last visit and missing documentation has been added.</p>
