Name of Early Learning and Childcare Licensing Staff Joanne Voyer Page		Position Title Quality Assurance Monitor	
Order for Compliance	Regulation	Date to be corrected	Date corrected

General Comments

Monitoring visit performed.
Covid guidelines are being followed, daily log sheets are completed and screening is done prior to entry. Administrative records were reviewed i.e. attendance records, and new staff information etc
Children were observed napping or having a quiet time . Currently the 4 year old group is using the new space that has been created since moving the office space and decreasing the cubby area. The space is lovely and inviting. The older preschool age group were involved in a variety of age appropriate activities. Group of 4 children were playing a game, another group painting. Educator has a quiet manner around the children which is calming.
Educators were observed providing assistance with extending learning and providing guidance when needed. I reviewed staff records for updates and all in order. The operator will be forwarding the First Aid confirmation which she will store in staff file. thank you.
This facility is meeting section 11 of the regulation for training requirements. One educator is registered on the wait list for the 90 hours, all other staff have completed ECE training requirements.
The chain link fence leaving the school age room needs adjusted so the fence and gate are less than 4 inches from the ground. I did not observe outside play during my visit, but it was raining and it is the norm for children to enjoy outdoor play opportunities.
The operator is waiting on a fire inspection. Once I receive the report, I will assign one of the inspectors to visit . It is expected this will increase childspaces.
