General Comments
<p>When I arrived, the children were playing inside. Once inside, they had lunch and went down for a nap. The children that did not nap, were provided with quiet activities in the front room such as Legos, a snowflake activity with the light table, and some coloring.</p> <p>Nap time routine went well, the children settled quickly and fell asleep.</p> <p>The rooms are clean and well organized. They are divided in different learning stations and are mostly equipped with natural elements. The materials and activities available to the children provide them with fine and motor skills, dramatic play, literacy, sensory and many other different learning opportunities. There is evidence of the children's learning on the walls and around the centre.</p> <p>The cabin outside is also equipped with all-natural elements. The space is inviting with learning opportunities on animals, nature, and the environment. It is also undergoing renovations to add a washroom.</p> <p>Before the after-school children arrived, the staff organized the space and set up different activities and invitation for play. A new sensory bin was set up and a house was built with some magnetic blocks with added small lights inside, and bells. The children were very interested, and it sparked their creativity and they started building. Some of the other children engaged in coloring, others built with puddy and others played in the pretend play area.</p> <p>The staff are attentive and engaged with the children. Positive child guidance was observed such as gentle reminders and encouragements.</p> <p>When spring arrives, please ensure more pea gravel is added to ensure there is 30 cm's of protective surfacing around the play structure in the fenced area.</p> <p>Everything is in compliance; I recommend for renewal.</p>
