General Comments

The two-year-old classroom was having their afternoon snack upon arrival of licensing staff. The indoor play area was clean and organized. Materials in each room were developmentally appropriate, and enough materials were available for the children within in the facility.

Children transitioned to outdoor play. The outdoor play area was also clean and well maintained. All children were engaged in several activities and the educators were observed sitting with children. Water was available for children and supervision was maintained at all times.

A change in service application has been provided during this inspection as age groups within the rooms have changed since the last inspection.

Positive behaviour strategies were observed throughout the inspection.
