General Comments

During my visit I observed lots of positive child guidance, such as gentle reminders, encouragement, giving time reminders, and very respectful communication by the educators to the children, and amongst themselves. Each classroom had a variety of activities and materials and the educators were actively involved in the activities with the children. There was documentation of children's learning on the walls, and the educators have been using the emergent curriculum in their classrooms. I observed good hand washing techniques by the educators and children. Everything is in compliance and I recommend for licencing.

Please post updated diaper changing procedures. Although the toxic products are locked, the locks must now be replaced with lock and key rather than using the CSA approved child safety locks.
