<p>General Comments</p> <p>The center was clean and bright during my visit. One group was getting ready for a field trip, one group was going for a walk and the others were doing learning circles and eating snack. Lots of evidence of programming and learning activities on the walls. I observed lots of positive interaction between the educator's and the children with gentle reminders and encouragements. I observed the educators encouraging good personal hygiene's and helping the children wash their hands before and after eating. The facility is following all covid-19 guidelines and regulations.</p> <p>As per policy 33(2) stationary equipment requires 30 cm's of protective surfacing. The stationary equipment does not have 30 cm's of protective surfacing; therefore, this will need to be addressed in the spring when the ground thaws.</p> <p>I recommend for licencing.</p>
