31(3) An operator shall maintain the outdoor play area of a licensed facility to ensure the safety of the children.	31(3)	Jun 24, 2022	
Comments: Please place drainage holes in the tires in the outdoor play area and also address the puddle of water in the playhouse - preschool play area. The lawn needs mowed in the infant outdoor playspace, though this was not used during my visit today.			

General Comments
<p>Monitoring visit performed today.</p> <p>Attendance records were reviewed and these are being tracked daily.</p> <p>All children were observed getting ready for outdoor play. One group going for a walk, a second group heading out to the University as Educators had promised to go yesterday. They love going to the basketball court and draw with chalk on the pavement. The other 2 groups spent time in the outdoor play area involved in a variety of age appropriate fun activities. Lots of things for the children to explore - a reading corner has been set up since my last visit. Some children were pretending to be dinosaur eggs, other children were observed riding a tricycle around the path, another child was pretending to mow the lawn, another child involved in water play, and a group of children were playing with the pin wheel decorations catching them in the wind. Educators were engaged, interacting and involved in the children's play.</p> <p>Programming posted throughout the centre referencing the curriculum. Cultural and Diversity is evident - Educators request donations of new objects, loose parts for children to explore - anything is welcomed to bring from home or the community.</p> <p>The four/five age group had their graduation last week. Educators displayed learning stories, pictures of the children, and monthly webbing activities for the past year.</p> <p>Centre follows appropriate practices when getting ready for outdoor play or going on a field trip. Educators made sure that water bottles were not left behind.</p>
