General Comments

I attended your facility on August 25, 2020, for a follow up inspection. The outdoor play space in the parking lot had been removed. However, you had not installed the locks for your toxic products and medications. Therefore, I advised I would be back on August 26, 2020 for a second follow up.

On August 26, 2020, I attended your facility. Your toxic products and medication were locked , however, they are not lock by key. Medication and toxic products must be lock by key as indicated in my previous report, no other method is approved. This must be completed by August 28, 2020.
