General Comments

When licensing staff arrived, children were finishing up lunch and napping children were preparing for naptime. Children that do not nap spread out throughout two upstairs rooms with educators ensuring the ratio of child-to-staff ratio was met as children chose to visit between rooms. Educators took their lunch breaks during children's nap periods with the administrator covering ratio when needed.

The resources in each room aligned with curriculum areas and educator's preplanning was evident in invitations, books, and documentation. Children's names were posted in each room with individual spaces to highlight children's artwork including their names. The front hallway included framed documentation from multiple rooms showing a deeper investigation into materials and supporting documentation.

New staff files were reviewed and all checks in order. Licensing staff and the administrator discussed upcoming regulation changes and possible impacts to the facility.
