General Comments Fire drills are now being completed on a monthly basis. The deficiency is now compliant. During the follow-up inspection it was noted that the after-school room needs a good cleaning. Two of the tables were sticky and had food crumbs on them. The floor is dirty and in some area sticky where things have been spilled and not wiped up properly. The back entrance where the after-school children's personal items are stored needs to be vacuumed and washed as there is an accumulation of dirt and rocks on the floor and in the corners. The room is showing lot of wear and tear as there are chips in the paint and the damage to the corners of the walls. It is recommended the walls be repaired and painted. The fire exit in the four's room, and the wheelchair ramp in the back of the building have bushes growing up between the steps and along the rails. The bushes be cut down as it could impede the children exiting the building in case of an emergency.
