| General Comments |
| <p>Two classrooms were in the outdoor play area upon arrival of licensing staff. Outdoor play area was in good repair and contained engaging materials for children.</p> <p>Slide in infant outdoor play area needs to be moved away from fencing. Sand is to be raked back into sand area to allow for second surface of grass to be available. Infants were engaged and attended to while in outdoor play space.</p> <p>Indoor play space was observed, and materials were sufficient for the number of children attending. One classroom remained inside, and all children were engaged with several activities of their choosing. Blocks, kitchen area, train table and army materials were all being utilized by children during the monitoring inspection. Positive behaviour guidance was observed at all times.</p> |
