Comments: The number of children in the 4-year-old classroom exceeds the room's capacity. During my visit, 19 children were in the room, which is measured for 18 children. Room measurements were reviewed with the administrator and operator, and options to address the issue were discussed. A copy of the measurements (taken in 2021) was provided. A plan must be developed to ensure the room's capacity is respected at all times.			

General Comments
The child-to-staff ratio was verified as part of a Change in Service Inspection.
