Order for Compliance	Regulation	Date to be corrected	Date corrected
39(2) A licensed facility shall have a separate storage space under lock and key that is inaccessible to the children for each of the following: (b) medications.	39(2)(b)	Nov 10, 2026	Nov 10, 2026
Comments: Deficiency is now compliant During the visit, the cabinet containing the medications in the 2-year-old room was not locked. It was locked immediately once the issue was brought to attention.			

General Comments

-Morning visit to the establishment for an unexpected monitoring inspection
-Ratio was respected during the visit
-Room measurements were taken during the visit to confirm each room ratio
-Daily activities into the center shows purposely planned and documented programming that gives children, time, and space for a free play experience, indoor and outdoor opportunities for physical activity either individually or in a group. Children have opportunities to explore various forms of literacy and to express creativity and interests, to explore the arts and sciences and to experience accomplishment and success. They have opportunities to problem solve and to develop trusting, respectful and supportive relationships.
-In all rooms, evidence of purposeful planning based on children's interest and learning, webbing, invitation, photos and learning stories were posted.
-Daily routine into the center includes; Outdoor play time at least once every 4-hour blocks time when the weather is permitting. Meal and snacks are served at the recognized hours and a daily rest period that meets the children's needs.
-During the visit, it was observed that all educators are engaged with children at their level providing support and having conversations. Open-end questions are asked and guidance is given in a respectful and kind way
-Diaper changing station is found in one of the infant rooms and in the basement washroom, individual space is provided for diapers and changing necessities. The changing table is equipped with a safety strap and covered with a non-absorbent layer, it is separated from the food preparation and is located one meter or less from a sink and children are always supervised during diaper changing.

Observations: During the visit, all groups either went outside to play or took a walk to the nursing home to distribute poppies. Upon returning, the children used the washroom and washed their hands before having lunch.
