<p>General Comments</p> <ul style="list-style-type: none"> -Visit at the facility for a monitoring inspection. -Ratio was respected during the visit. -Parent board has all the required documents. -Incident reports are maintained in the child's file and parents are advised of incidents and signs the daily log. -Monthly emergency evacuation and fire drills are completed. -Children's blankets and cots are identified and stored separately. -I observed that the educators are using positive child guidance technique, they show respect to each child rhythm and are attentive to their needs. <p>Observations: When arriving at the center, the little learner's group was playing with Play-Doh, they were exploring different textured clay. All other groups were playing outside, some were exploring with dinosaurs, glitter, and beans into a tough tray, some went on a walk. All kids came in and got ready for lunch. I could see in each room ongoing project on butterflies, children are exploring the transitioning from the cocoon to the butterflies. Documentation is posted in each room showing the children's interest.</p>
