Address Unit 2-1 9160 Main Street Florenceville-Bristol NB E7L 2A6			
Name of Early Learning and Childcare Licensing Staff Angela Tozer		Position Title Inspector	
Order for Compliance	Regulation	Date to be corrected	Date corrected

General Comments

This facility is following the recommendations made in the COVID-19 Recovery Phase document. I was screened outside before entering the building. Signage is visible throughout the centre and educators wear masks when leaving classrooms or covering breaks. Evidence of increased cleaning is evident in the environment, recorded on cleaning forms and noted by educators by the lack of illness in the facility. Household records are kept on the attendance clipboard in each room and parent's consent for screening located in a file folder. Group logs with mid-day temperatures are also kept by each educator.

Documentation was evident throughout the facility by individual photos, artwork, comments, and questions posted. Monthly schedules and ideas for activities were posted outside some rooms. The educators in the mixed age room of 2, 3 and 4's positively guided children by giving a reminder of upcoming transitions ("One more song before we go outside"), giving gentle reminders such as not running on the steps and redirecting negative energy. The educators were playful and engaged with the children as they sang and moved to music, read stories and played.

Outdoor carpet has been added to each space outside allowing some cushiony space to sit and play, as well as adding a different texture to the environment. The sandboxes have been covered but new garden boxes added allowing some different areas to play. Plants are located throughout each space. The wooden structure in the preschool space has been moved and may need to be moved away slightly from the deck and the pea gravel to be raked more in that area to ensure safety. The curriculum areas can be viewed inside and out.

The educators throughout this facility engage positively with children and it is evident when children arrive they are happy to see their educators and update them on anything new.

The staff and child files are organized and complete. All checks throughout the centre such as fire drills and outdoor checks have been completed regularly. Everything is in compliance.
