Order for Compliance	Regulation	Date to be corrected	Date corrected

General Comments

There have been many positive changes to the children's environment in this facility. The administrator has purchased natural shelving for the classrooms allowing the children to access a variety of materials and resources for learning.

The programming is diverse and includes reach out community partners. These experiences are captured in pictures and placed on the wall for everyone to see. This facility has had many mystery readers where someone from the community is chosen to come in and read to the children.

The outdoor play space has had more materials added to it since the last renewal. There is a reading area, art centre, music area and terrain to represent a dinosaur's habitat, a fairy garden and a beach and pirate area. There is an abundance of accessories to complement the environments and many different kinds of surfacing to promote different kinds of play.

All documentation for licensing purposes was easily verified and the administrator has a very organized system in place.

Licensing staff is able to recommend facility for licensing pending a current health inspection.
