### General Comments

It was a hot day, and the daycare was quite warm. As the educators and administrator are doing everything to keep the environment cool, the facility could definitely benefit from air conditioning or more fans.

Documentation was evident throughout the facility by individual photos, artwork, and learning stories. This facility also has documentation outlining how the community is involved. Each classroom had a schedule where the children could bring their parent to daycare day. The autism centre, Go-Go Kids, the RCMP and the Fire Chief have also been invited into the facility to give presentations to the children.

More natural components have been added to the outdoor play areas. There was ride on toys, kitchen play, sand, art, music, hammocks for rest, a slide, and wooden planters to name a few.

The educators throughout this facility engage positively with children by playing with them and having conversations with them at their level. It is evident that they have built respectful relationships with the children.

The staff and child files are organized and complete. All checks throughout the centre such as fire drills and outdoor checks have been completed regularly. Everything is in compliance.
